PROFILE

AI focused Computer Science undergraduate skilled in building RAG pipelines, AI agents, and adaptive learning systems using FastAPI, LangChain, and vector databases like FAISS and Neo4j. Experienced in deploying full-stack, production-style applications with secure authentication (JWT, OAuth 2.0) using Docker, AWS, and CI/CD workflows. Backed by hands-on project work in AI-driven platforms and ERP systems.

EDUCATION

Bachelor of Technology - Computer Science and Technology,
Dayananda Sagar University

Bangalore, India
09/2023 – Present

SKILLS SUMMARY

Languages

Python, SQL, JavaScript, TypeScript, Java, C

Vector & Databases

FAISS, Neo4j, MongoDB, MySQL

AI/ML

LangChain, RAG Pipelines, AI Agents, Prompt Engineering, OpenAI API, HuggingFace Transformers

DevOps & Deployment

Docker, Jenkins, AWS EC2, GitHub Actions, Nginx, CI/CD

Backend & APIs

FastAPI, Flask, REST APIs, Node.js, Async Python

Tools

Power BI, Excel, Git, GitHub

Soft Skills

Problem solving, Report Building, People Management, Excellent communication, Adaptability

PROJECTS

LearnPath AI – Adaptive Learning Platform, React · FastAPI · Python · SQLite · GitHub OAuth · JWT · pdfplumber | [LINK](#)

- Built a full-stack adaptive learning system with React and FastAPI, using JWT authentication and GitHub OAuth 2.0 for secure identity linking.
- Engineered a Skill Synthesis Engine that parses PDF resumes and GitHub language stats into a unified SkillProfile via async API calls.
- Designed an Elo-based adaptive difficulty engine and modeled the roadmap.sh curriculum as a DAG to personalize learning paths and track progress.

DineInGo, React · Node.js · Firebase · TypeScript | [LINK](#)

- Built a restaurant and event reservation platform with multilingual support and responsive UI/UX.
- Developed REST APIs, Firebase authentication, digital PDF invoicing, and Apple/Google Wallet pass integration.
- Implemented smart search, location-aware recommendations, and real-time booking workflows.
- Designed scalable frontend and backend architecture for seamless customer reservation experiences.

FlowGrid – ERP System, React · Node.js · MongoDB · Docker · Jenkins · AWS EC2 | [LINK](#)

- Built and deployed a full-stack ERP platform with analytics dashboards, employee management, and JWT authentication.
- Automated CI/CD deployment workflows using Jenkins, GitHub Actions, Docker, and AWS EC2.

CERTIFICATES

- Nasa Space Apps Challenge - 2024 | [LINK](#)
- AWS Academy Graduate - Cloud Foundations | [LINK](#)
- Tata GenAI Powered Data Analytics | [LINK](#)

LEADERSHIP AND ENGAGEMENTS

Student Coordinator, Eighth Annual Convocation 2024

Coordinated logistics and on-ground support as a student coordinator for the Eighth Annual Convocation at Dayananda Sagar University.

Student Volunteer, Tradition 3.0

Volunteered for Tradition 3.0, an event hosted by the Computer Science and Technology branch.
